

Ladders

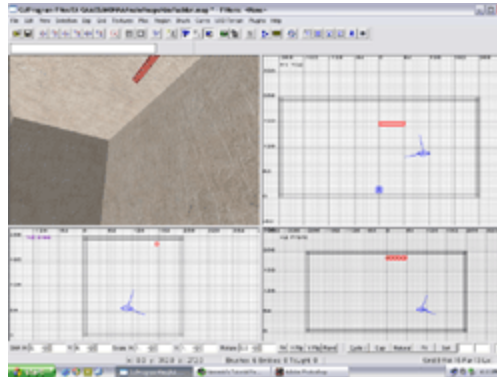

What we are going to do:

ARRR the blasted ladders! What a mess! Well I will try my best to help you!

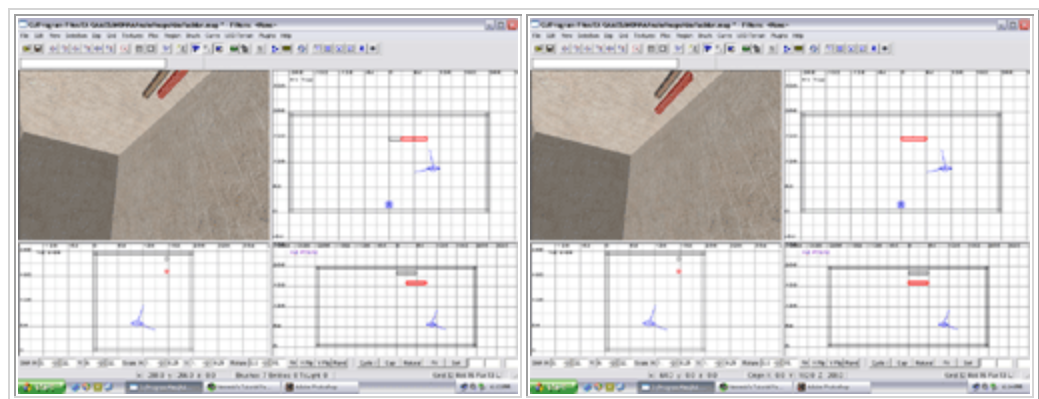

Get Going!

Okay, open MOHRadiant, and Make a room, my room is 512x256x256. Put your grid on 8, pick a tex and hallow it out!

Now make a step, 8x64 units, apply any texture you want, I chosed "German" "gnricratesml_top"

Now put your grid on 32 and tap the space bar to duplicate your step. And drag it under you step alre:

Keep doing this until you reach the bottom!

Now lets make rails, put your grid on 8, and then make a rail on the left side. You can apply a differ texture if you want! And duplicate it and move the new one to the right!
