

MoH:AA (RCON) Map List

Made by Brian Kulk / Shadow

****NOTE, THIS FILE IS NO LONGER BEING UPDATED AND IS MISSING A LOT OF CUSTOM MAPS****

Quick search? Press CTRL+F and type in the name/letters you want to find.

All commands must be entered through console, in a callvote the majority needs to 'vote yes' in console.

If you have a map which is not below, you can still find the map command the following way:

Use packscene to open the map.pk3, go to the 'maps' folder, then it shows either 'obj' or 'dm' (or both)

Now this folder tells you whether to begin with obj/ or dm/, if you click on the folder, the name of the .bsp file is your command.

E.g.: 'obj' folder -> 'farpointstorage.bsp' -> command = obj/farpointstorage

E.g.2: 'obj' folder -> 'obj_beuze.bsp' -> command = obj/obj_beuze

Be aware that some maps are both in objective and death match and might have a different name/command!

Some maps might also be available in more than 1 game! (AA, SH, BT)

Games in **RED** are maps that do NOT work in MoH:AA, which means they are either solely for Spearhead, Breakthrough or have an issue which results in that they simply do not work in any game. Note that not all maps are in my possession, so I could not test them all.

Some maps might have more creators, or people that were involved in the making, but either their names were not found, there were too many names to list or seemed less involved and were thus left out of this list.

Anyone who feels that they should be in this list can contact me on xNULL or AAAA.

My apologies if I missed someone or if I made a mistake.
