

x-null adminIniEditor

Description / Purpose

With the adminIniEditor you can generate or edit the admins.ini file that is used as a configuration file for sub-admins for the Mohaa Patch 1.12 at www.x-null.net

Administrate the admins and rights on your patched mohaa game server with this tool.

System Requirements:

adminIniEditor needs the .NET Framework 2.0 or higher to run.

Licence:

adminIniEditor has no licence, the included x-null logo is copyright by x-null development

Download:

[adminIniEditor Downloads](#)

Installation:

Execute the x-null_adminIniEditor_1.0-setup.msi file, this will start the installer which will guide you through the installation process.

Sourcecode:

Sourcecode (VS2008 project) is available in the downloads section
