

Destroyed Walls Lil Advanced look!

What we are going to do:

Just make it look better w/a different tool! and Different techniques. We will use the "clipper" tool and different "sides" for a brush!

Get Going!

Okay, I am using the room I made in the tutorial "[Destroyed Walls](#)" so if you did not make it, make really fast, or don't worry, use your own!

Okay, drag your wall back out, if it is in your room! Deselect it!

Make another little box on top of your wall like you did before!

Now deselect it and hit "X" on the key board. This brings up the "clipper" tool, you can also hit thi

Now click in the top right corner of your box, a little "1" will appear! Then on the bottom click about units over from the right, and a little "2" will appear! then hit enter, and you have yourself a figure
