

Cheat Commands to look out for!

The following commands are 'normal' game commands, but can be used as a cheat, depending on their value.

> = Greater than (*values greater than the mentioned value*)

Command (Combination)	Cheat Value
cg_3rd_person	1
cg_acidtrip	>0
cg_forceModel	1 (<i>No cheat if you allow force models!</i>)
cg_shadows	>0 (especially 3)
cg_cameraverticaldisplacement	-18
g_showbullettrace	1
r_drawbrushes	0
r_drawbrushmodels + r_novis	0 + >0
r_drawstaticmodels	0
r_drawstaticmodelspoly	0
r_drawworld + r_novis	0 + >0
r_farplane_nofog	>0
r_farplane_nofog + r_farplane + r_farplane_nocull	>0 + >0 + >0
r_lightmap	>0
r_picmip	>2
r_fastsky	>0
r_fullbright	>0
r_light_nolight	>0
r_light_showgrid	>0
r_mapOverBrightBits	Values above and below: 1
r_nobind	>0
r_novis	>0
r_overbrightbits	>0
r_showcull	>0
r_showsky	>0
r_showSmp	>0
r_singleshader	>0
r_vertexlight	>0
r_static_shadermultiplier3	0
r_intensity	>1

If you catch any player with one the following commands below, they are most likely hacking or using a hexed mohaa.exe (no matter what value the command is on it is a cheat, if the value is 0, the command is most likely off at the moment, although the hack is probably still running).
